

# The Cambiare electric cello

The Cambiare™ is an electric cello that incorporates traditional elements with modern design, advanced materials, and amazing sound. Cellists call it a "dream e-cello" because of its innovative design, tone, and playing comfort. The Cambiare™ is a professional quality instrument that provides today's players with warm, natural sound and advanced features at a modest price. The Cambiare™ electric cello was designed, built, and tested by seasoned music professionals; it is the product of their passion and commitment to maintain warm, musical tone in an electronic instrument.
